## DATA SHEET

## PBSS5320T

20 V, 3 A
PNP low $\mathrm{V}_{\text {CEsat }}$ (BISS) transistor
Product data sheet

## FEATURES

- Low collector-emitter saturation voltage $\mathrm{V}_{\mathrm{CEsat}}$ and corresponding low $\mathrm{R}_{\mathrm{CEsat}}$
- High collector current capability
- High collector current gain
- Improved efficiency due to reduced heat generation.

## APPLICATIONS

- Power management applications
- Low and medium power DC/DC convertors
- Supply line switching
- Battery chargers
- Linear voltage regulation with low voltage drop-out (LDO).

## DESCRIPTION

PNP low $\mathrm{V}_{\text {CEsat }}$ transistor in a SOT23 plastic package. NPN complement: PBSS4320T.

## MARKING

| TYPE NUMBER | MARKING CODE ${ }^{(1)}$ |
| :--- | :---: |
| PBSS5320T | ZH* |

## Note

1. $*=p$ : Made in Hong Kong.

* = t: Made in Malaysia.
* = W: Made in China.

## Notes

1. Operated under pulsed conditions: pulse width $\mathrm{t}_{\mathrm{p}} \leq 100 \mathrm{~ms}$; duty cycle $\delta \leq 0.25$.
2. Device mounted on a printed-circuit board; single sided copper; tin plated; standard footprint.
3. Device mounted on a printed-circuit board; single sided copper; tin plated; mounting pad for collector $1 \mathrm{~cm}^{2}$.
4. Device mounted on a printed-circuit board; single sided copper; tin plated; mounting pad for collector $6 \mathrm{~cm}^{2}$.

## DISCLAIMERS

General - Information in this document is believed to be accurate and reliable. However, NXP Semiconductors does not give any representations or warranties, expressed or implied, as to the accuracy or completeness of such information and shall have no liability for the consequences of use of such information.

Right to make changes - NXP Semiconductors reserves the right to make changes to information published in this document, including without limitation specifications and product descriptions, at any time and without notice. This document supersedes and replaces all information supplied prior to the publication hereof.

Suitability for use - NXP Semiconductors products are not designed, authorized or warranted to be suitable for use in medical, military, aircraft, space or life support equipment, nor in applications where failure or malfunction of an NXP Semiconductors product can reasonably be expected to result in personal injury, death or severe property or environmental damage. NXP Semiconductors accepts no liability for inclusion and/or use of NXP Semiconductors products in such equipment or applications and therefore such inclusion and/or use is at the customer's own risk.

Applications - Applications that are described herein for any of these products are for illustrative purposes only. NXP Semiconductors makes no representation or warranty that such applications will be suitable for the specified use without further testing or modification.

Limiting values - Stress above one or more limiting values (as defined in the Absolute Maximum Ratings System of IEC 60134) may cause permanent damage to the device. Limiting values are stress ratings only and operation of the device at these or any other conditions
above those given in the Characteristics sections of this document is not implied. Exposure to limiting values for extended periods may affect device reliability.

Terms and conditions of sale - NXP Semiconductors products are sold subject to the general terms and conditions of commercial sale, as published at http://www.nxp.com/profile/terms, including those pertaining to warranty, intellectual property rights infringement and limitation of liability, unless explicitly otherwise agreed to in writing by NXP Semiconductors. In case of any inconsistency or conflict between information in this document and such terms and conditions, the latter will prevail.

No offer to sell or license - Nothing in this document may be interpreted or construed as an offer to sell products that is open for acceptance or the grant, conveyance or implication of any license under any copyrights, patents or other industrial or intellectual property rights.

Export control - This document as well as the item(s) described herein may be subject to export control regulations. Export might require a prior authorization from national authorities.

Quick reference data - The Quick reference data is an extract of the product data given in the Limiting values and Characteristics sections of this document, and as such is not complete, exhaustive or legally binding.
